NUR 5056 Advanced Physical Assessment and Specialty Practicum for Nurse Educators

Clinical Practicum: Preceptor Evaluation of Student Competency

Name of Student: _____ Term/ Year: _____

Practicum Site: _____

Name & Credentials of Preceptor _____

Course Faculty: _____

Directions: The course objectives and associated competencies are listed to guide your evaluation of this student during this 30 hour practicum. The evaluation is done the end of the practicum. Please indicate whether the student has met or not met each of the competencies. Student performance should be discussed during the practicum so that a plan of action can be put in place to promote student achievement of the competencies. There is a section following the competency statements for the preceptor, student and faculty to enter comments Please enter a comment if student performance is below the expected level. By the end of the practicum, the student will need to meet all the competencies for successful completion of this course.

Competency Statements	Met	Not Met
1. Integrates didactic learning of advanced pathophysiology, pharmacology, and physical assessment when formulating a comprehensive plan of care.		
2. Obtains a comprehensive health history including cognitive, physical, psychosocial and developmental assessment.		
3. Demonstrates competent physical assessment skills using a systems approach.		
4. Discusses key findings in relation to the development of a plan of care		

Competency Statements	Met	Not Met
