M.B.A. Management	Retention	85%	66.67%
M.B.A. Marketing	Retention	85%	66.67%

Calculations for Measures

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
Retention	Reports the percentage of first-time, full-time undergraduate students or first-time graduate students that entered the School of Business in Fall 2023 and were retained in Fall 2024. Calculated as the number of students retained divided by the number of students entered.
Graduation	Reports the percentage of students completing their degrees within 150% of the standard completion time. For undergraduate degrees, this six-year graduate rate is calculated by the number of students who graduated in 2024 divided by the number of students entering in Fall 2018. For graduate degrees, this three-year graduation rate is calculated by the number of students who graduated in 2024 divided by the number of students entering in 2021.
